DPDSV MOA To Lapse?

Daya Vessels Limited (DVL), a subsidiary of Daya OCI Sdn Bhd (DOCI) and SBM Installer S.A.R.L (SBM) entered into an MOA for the USD180m (c.RM577m) acquisition of a newbuild diving support and construction vessel (DPDSV). The acquisition however may likely lapse considering the details of the MOA. Albeit this, with current contracts on hand coupled with potential contracts it could be close to securing, Daya will continue to look forward to entering an exciting phase. We reiterate our **Outperform** call with an unchanged TP of RM0.45 premised on 12x FY14 EPS of 3.71 sen.

- **The MOA**, was entered between Daya Vessels Limited (DVL), a subsidiary of Daya OCI Sdn Bhd (DOCI), which is also a subsidiary of Daya Materials and SBM Installer S.A.R.L (SBM) on 7 November 2013 for the acquisition of a DPDSV. Daya's Board of Directors recognised their responsibility to make appropriate and timely announcements, however in this case did not want to mislead or confuse its shareholders.
- **The scenario**. While SBM agreed to sell the DPDSV, Daya however did not have the intention to purchase the vessel, and as such did not attempt to meet the terms of the MOA. We believe the Group is seeking further legal advice to resolve this matter.
- **Maintaining conservative**. To recap, our valuation does not factor in this acquisition or other potential future acquisitions such as SD3. Remaining conservative, we like to ensure the materialisation of assets prior to accounting for it. Should Daya purchase any additional assets, we can then regard as a bonus to the Group's performance and thus valuation.
- **Reiterate Outperform call**. We are maintaining our target price of RM0.45, but with prospects for further re-rating pending the clarity of securing the new O&G contracts. The Group's outlook remains bullish with an orderbook worth about RM2.1bn which will provide the Group's earnings visibility up to FY17. The group has tendered for approximately RM1bn-RM1.5bn worth of new contracts under the subsea engineering segment, apart from the possibility of winning the re-negotiation of charter contracts from Technip for SD1 and SD2. We do believe Daya has the capacity to grow buoyed by better O&G sector growth outlook going forward. Our current valuation of Daya is based on a 12x multiple to FY14 EPS of 3.71 sen.
