KUALA LUMPUR: Daya Materials Bhd says its unit, Daya Proffscorp Sdn Bhd, has inked an agreement with Italy's Cimolai Technology SpA to undertake a "Mobile Straddle Transporter MST 320" project used in lifting and transportation.

In a filing to Bursa Malaysia yesterday, Daya Materials said Cimolai will quote only through Daya Proffscorp while Daya Proffscorp will not propose any equipment other than that of Cimolai's.

Cimolai is involved in the design, manufacture and supply of machines for lifting and transportation operations.

It also provides machines for industries like steel and renewable energy and in special and fields where tailor-made solutions are required.
