Acquires SD1 Only

Daya Materials (Daya) announced last Friday to proceed with the proposed acquisition of Siem Daya 1, a dynamic positioning class 2 (DP2) offshore subsea construction vessel for a purchase consideration of USD120.0m (c.RM435.2m) from its initial proposal on 22 August 2014. The proposal has been re-negotiated and amended to acquire only one vessel instead of the previous proposition of two vessels from Siem Offshore Rederi AS (SORA), with no liabilities or costs to either party. As mentioned in our previous report that we anticipated some changes in plans which could be more positive to the Group as the acquisitions would dilute the Group's EPS severely from higher finance costs, offsetting any anticipated earnings gains. This scenario however would be diminished in the long-run pending the replenishment of its orderbook. We concur that amidst the oil price uncertainties looming that the decision to only take on one vessel onto the Group's balance sheet is more favourable. We retain our **Neutral** call with TP of RM0.15 premised on our FY15F EPS of 1.5sen, pegged to a 10.0x PE. The current orderbook stands at c.RM2.1bn with its longest contract to last until 2020.

- The details.** The SD1 MOA includes the revised SD1 purchase consideration to be adjusted lower to USD120.0m from USD140.0m. The acquisition will then be satisfied by i) USD90.0m (c.RM326.4m) cash consideration, and ii) issuance of RM denominated 4-year redeemable convertible secured bonds equivalent to USD30m. In event of exchange rate fluctuations, the difference between the issue amount and RM30.0m will be paid by Daya in cash.
- SD1 charter contract** is currently on a long-term charter basis to Technip Norge AS (Technip) in the North Sea and North Atlantic regions. The contract is for a period of up to 230 days/yr until year 2020. The scope of works in respect of the contract is for the provision of SD1 and SD2. Depending on the actual utilisation of the vessels, the estimated value of the contract is c.RM440.0m for each vessel for the contract duration of 7 years.
- Less dilutive.** We are pleased that the Group will not proceed with the proposed renounceable rights issue of Daya shares with free detachable warrants to raise gross proceeds of <RM230m before the exercise of warrants. Daya will proceed with the placement of the remaining portion of the ordinary shares of <25% of the issued and paid-up share capital which equates to 347.2m shares. The placement implementation timeline has been approved by Bursa Malaysia to be extended up to 6 months to 25 October 2015. To-date, RM43.4m has been raised via 263m placement shares at RM0.165 per share.

KEY FORECAST TABLE

FYE Dec (RMm)	2013A	2014A	2015F	2016F	2017F	CAGR
Revenue	523.8	633.5	691.7	709.9	711.5	8.0%
Operating Profit	17.2	-26.8	42.2	44.7	44.8	27.0%
Pre-tax Profit	11.5	-37.0	35.3	37.8	37.9	34.8%

Dividend Yield (%)	0.0	0.0	0.0	0.0	0.0	

Source: Company, PublicInvest Research estimates

Salient terms. Daya will pay the USD8.6m (c.RM31.2m) balance by 30 June 2015, which will be held in an interest bearing account including the partial deposit of USD0.7m (c.RM2.5m) and monies paid previously in respect of SD2 to be utilised for the purpose of payment of the balance SD1 deposit.

Daya will sign a profit sharing agreement (PSA) with SORA, for the latter to be entitled 60% of Daya's PAT from operations of SD1, subject to the profit share amount to not exceed USD10.0m (c.RM36.3m). SORA will receive a 5-year call option to purchase SD1 at USD120.0m less any depreciation expenses but including interest costs and any profit share payment made. When the cumulative profit share is paid in full, the purchase option will automatically lapse.

Source of funding. Daya will fund the SD1 cash consideration of USD90.0m, USD1.6m (c.RM5.8m) for the SD1 Stores and Spares and USD2.3m (c.RM8.3m) for the crane through bank borrowings, internal generated funds and proceeds from the proposed placement.

Acquiring SD1 will enable Daya to own and operate SD1 rather than chartering SD1 from SORA. This would furthermore enhance the operating cost structure of SD1 which would bode well for the Group's future profitability. We understand that this initiative is in line with Daya's business strategy to own operating assets and to extend its subsea services capabilities in the offshore area of O&G.

Figure 1: Effect on Issued and Paid-Up Capital and Substantial Shareholder's Shareholding Upon Conversion of Bonds

Minimum Scenario	:	<p>Based on the assumption:</p> <p>(i) the 3,000 DMB Shares held as treasury shares (“Treasury Shares”) are retained by the Company and are not resold to the market; and</p> <p>(ii) the Bonds will be fully redeemed at the maturity date.</p>
Maximum Scenario	:	<p>Based on the assumption:</p> <p>(i) the 3,000 Treasury Shares are retained by the Company and are not resold to the market; and</p> <p>(ii) the Bonds will be fully converted at the maturity date.</p>

RATING CLASSIFICATION

STOCKS

OUTPERFORM	The stock return is expected to exceed a relevant benchmark's total of 10% or higher over the next 12 months.
NEUTRAL	The stock return is expected to be within +/- 10% of a relevant benchmark's return over the next 12 months.
UNDERPERFORM	The stock return is expected to be below a relevant benchmark's return by -10% over the next 12 months.
TRADING BUY	The stock return is expected to exceed a relevant benchmark's return by 5% or higher over the next 3 months but the underlying fundamentals are not strong enough to warrant an Outperform call.
TRADING SELL	The stock return is expected to be below a relevant benchmark's return by -5% or more over the next 3 months.
NOT RATED	The stock is not within regular research coverage.

SECTOR

OVERWEIGHT	The sector is expected to outperform a relevant benchmark over the next 12 months.
NEUTRAL	The sector is expected to perform in line with a relevant benchmark over the next 12 months.
UNDERWEIGHT	The sector is expected to underperform a relevant benchmark over the next 12 months.
