**B EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD ("BURSA SECURITIES") FOR THE MAIN MARKET**

**B1 Review of performance**

**Current Year Quarter versus Preceding Year Corresponding Quarter**

**(i) Oil & Gas ("O&G") Segment**

The business of this segment was significantly affected by the termination of a vessel contract in April 2016 as well as the non-utilisation of another vessel. Overall, O&G segment continued to be affected by the industry downturn and unfavourable FX fluctuations, resulting in a loss of RM7.49 million in Q3 2016.

**(ii) Technical Services Segment**

Revenue from this segment declined by 90% from RM86.27 million to RM8.33 million in Q3 2016 due to completion of several key projects valued at almost RM430 million earlier. The segment recorded a loss of RM0.91 million as compared to a pretax profit of RM1.97 million in Q3 2015.

**(iii) Polymer Segment**

Revenue from this segment for Q3 reduced from RM 5.42 million to RM 2.67 million. The decline was a result of a much lower contributions from semicon and jacketing products as a result of increased competition. As a consequence, the segment also suffered a loss.

Overall, the Group achieved revenue of RM66.6 million for Q3 2016, a decline of 63% from RM182.18 million from Q3 2015. As a result of reduced business activities as described above as well as higher depreciation and financing costs (arising from the purchase of a vessel) and unfavourable FX fluctuations, the Group also recorded a loss before tax of RM12.42 million during the quarter as compared to a profit before tax of RM14.71 million recorded in Q3 2015.

**B2 Variation of results against preceding quarter**

	Quarter ended 30.09.2016 RM'000	Quarter ended 30.06.2016 RM'000
Revenue	66,601	96,211
Loss before tax	(12,415)	(15,391)

For the quarter ended 30 September 2016, the Group recorded revenue of RM66.601 million, an decrease of 31% as compared to RM96.211 million recorded in Q2 2016. The decrease in revenue was mainly due to lower revenue in Oil & Gas and Technical Services Segment, as compared to Q2 2016. Losses decrease between Q3 2016 and Q2 2016 due to better vessel utilisation during the quarter despite lower down stream and technical service results.

**B3 Prospects**

The prospects for each of the operating segment is illustrated as below:

**(i) Oil & Gas ("O&G") Segment**

The outlook of the O&G industry remains challenging in the near term. Oil price fluctuates around US\$45 per barrel, and there are no obvious catalysts for a sustained upturn in oil price. As a result, O&G activities are expected to remain subdued in the short to medium term.

**(ii) Technical Services Segment**

The prospect for this segment is encouraging as the Group secured a major contract recently. The Group is also targeting several large-scale projects which are expected to contribute meaningfully to its bottomline in 2017.

**(iii) Polymer Segment**

The prospect for this segment is expected to remain subdued due to the slow growth of the industry, continued foreign competition as well as unfavourable industry dynamics. The Group will continue to adjust and fine-tune its business model in order to optimize our market position within the industry.

Given this backdrop, the Group is undertaking a strategic transformation exercise involving both asset sale and debt/operational restructuring in order to better manage its operating expenditures, reduce its gearing and position itself for the longer term recovery. The Group is also cautiously optimistic as it recently secured several significant long-term contracts from major clients in second half of 2016, contributions of which will be gradually realized in 2017 and beyond. The Group is thus targeting for a meaningful turnaround of its operations in 2017.
