B EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD ("BURSA SECURITIES") FOR THE MAIN MARKET

B1 Review of performance

Current Year Quarter versus Preceding Year Corresponding Quarter

(i) Oil & Gas ("O&G") Segment

The Group recorded revenue of RM13.908 million for Q4 2016, a decline of 81% from RM72.085 million achieved in Q4 2015. The lower revenue was principally due to the low utilization of its subsea vessels. As a result, the Group decided to make an one-off impairment of approximately RM135 million on its vessel (SD1) and its entire subsea business to better reflect the prevailing value of its overall offshore assets.

(ii) Technical Services Segment

The revenue from this segment decreased by 45% from RM60.860 million in Q4 2015 to RM33.700 million in Q4 2016 as a result of completion of two major construction projects. Correspondingly, this segment also recorded a lower profit of RM2.049 million as compared to RM3.323 million over the same period. However the segment enjoyed a pretax margin enhancement during the quarter, from 5.5% in Q4 2015 to 6.1% in Q4 2016.

(iii) Polymer Segment

The revenue from this segment for Q4 2016 was RM1.921 million, a decline of 75% from RM7.767 million achieved in Q4 2015. The decline was largely due to lower demand of its polymer products, resulting in a pretax loss for this segment.

Overall, the Group achieved revenue of RM49.528 million for Q4 2016, a decline of 65% from RM140.712 million recorded in Q4 2015. The Group recorded a consolidated loss before tax of RM141.654 million for Q4 2016 as compared to a loss before tax of RM32.102 million in Q4 2015.

B2 Variation of results against preceding quarter

	Quarter ended 31.12.2016 RM'000	Quarter ended 30.09.2016 RM'000
Revenue	49,528	66,601
Loss before tax	(141,654)	(12,415)

For Q4 2016, the Group recorded revenue of RM49.528 million, a decline of 26% as compared to RM66.601 million recorded in Q3 2016. This decline was largely attributable to the Oil & Gas segment where the Group had a very low utilisation of its vessels during the quarter. The Group suffered a large pretax loss of RM141.654 million in Q4 2016 as compared to RM12.415 million in Q3 2016, principally due to the one-off impairment of approximately RM135 million made during the current quarter.

B3 Prospects

The prospects for each of the operating segment is illustrated as below:

(i) Oil & Gas ("O&G") Segment

Sentiments in the Offshore O&G segment is expected to remain challenging in the short to medium term. While there are early signs of gradual recovery, the management does not expect such recovery, if materialized, to significantly alter the economics of the Group's existing subsea business. In this regard, we are presently negotiating a sale of SD1 (our only subsea vessel) with a view of streamlining our investment in this sector so as to refocus the Group's resources on other profitable O&G businesses. The sale of the vessel, if materialized, will allow the Group to significantly de-leverage its balance sheet and strengthen its financial position meaningfully.

As for the Group's other O&G businesses, the management believes that it has achieved a meaningful turnaround, having secured several long-term contracts towards the end of 2016. The management is confident of an improved operating performance in the coming year.

(ii) Technical Services Segment

The construction sector is expected to remain competitive going forward. The Group has performed reasonably well under such an environment in the past, and is expected to do so going forward. The Group recently secured a long-term contract from a key client to build a retail cum commercial facility, and is confident of securing more projects from its expanding tenderbook. The management is therefore optimistic about the prospects of this segment.

(iii) Polymer Segment

The economics of this segment has been significantly impacted by foreign competition, especially over the past 3-4 years. As a result, sales are very price-sensitive and profit margin is very thin. The management is now exploring ways of extracting value from this business via a strategic corporate exercise.

Overall, the management is cautiously optimistic of an improved performance in the coming year.

(e) Kuala Lumpur High Court Originating Summons No. WA-24C-70-08/2016 (Yuk Tung Construction Sdn Bhd. V. Daya CMT Sdn. Bhd.)

The abovementioned suits by Yuk Tung Construction Sdn Bhd ("YT") arose out of a construction contract executed between Daya CMT Sdn Bhd ("DCMT"), its 51%-owned subsidiary, and YT on 23 November 2012. DCMT was appointed as the Principal Sub-Contractor to carry out the construction and completion of the building works known as "Cadangan Mendirikan Pembangunan bercampur 3 Blok 28 Tingkat: Blok A-526 Unit SOHO (22 Tingkat) dan 10 Unit Kedai Pejabat; Blok B-365 Unit Apartment Servis 21 Tingkat; Blok C-168 Unit Apartment Servis 21 Tingkat, Termasuk 7 ½ Tingkat Podium Tempat Letak Kereta dan 2 Tingkat Basement Tempat Letak Kereta at Lot 30844, Batu 6, Jalan Sungai besi, Mukim Petaling Dalam Bandaraya Kuala Lumpur untuk Tetuan Yuk Tung Land Sdn Bhd" ("Contract").
